

Challenge 1 10 Color Spiral

```
import turtle
```

```
t = turtle.Pen()
```

```
turtle.bgcolor("black")
```

```
t.speed(0)
```

```
sides = 10
```

```
colors = ["red", "yellow", "blue", "orange", "green",
```

```
          "purple", "gray", "white", "pink", "light blue"]
```

```
for x in range(360):
```

```
    t.pencolor(colors[x%sides])
```

```
    t.forward(x * 3 / sides + x)
```

```
    t.left(360/sides + 1)
```

```
    t.width(x*sides/100)
```
