

Challenge 2 Color Me Spiral

ColorMeSpiralled.py

```
import turtle # set up turtle graphics
```

```
t=turtle.Pen()
```

```
turtle.bgcolor('black')
```

```
# Set up a list of any 10 valid Python color names
```

```
colors=['red', 'yellow', 'blue', 'green', 'orange',  
'purple', 'white', 'gray', 'brown', 'sea green']
```

```
# ask the user's name using turtle's textinput popup window
```

```
your_name = turtle.textinput("Enter your name", "What is your name?")
```

```
# ask the number of sides
```

```
sides = int(turtle.numinput("Number of sides",
```

```
"How many sides do you want (1-10)?", 5, 1, 10))
```

```
# draw a spiral of the name on the screen, written 100 times
```

```
for x in range(100):
```

```
t.pencolor(colors[x%sides%10]) # rotate through the 10 colors
```

```
t.penup() # don't draw the regular spiral lines
```

```
t.forward(x*4) # just move the turtle on the screen
```

```
t.pendown() # now, write the user's name, bigger each time
```

```
t.write(your_name, font=("Arial", int( (x*2 + 4) / 4), "bold" )  
t.left(360/sides+2) # turn left 360/sides+2 degrees for sides
```
