

Adding User Input to Turtle: Rosette Gone Wild! Code

```
# RosetteGoneWild.py
```

```
import turtle
```

```
t = turtle.Pen()
```

```
t.speed(0)
```

```
# Ask the user for the number of circles in their rosette, default to 6
```

```
number_of_circles = int(turtle.numinput("Number of circles",
```

```
    "How many circles in your rosette?", 6))
```

```
for x in range(number_of_circles):
```

```
    t.circle(100)
```

```
    t.left(360/number_of_circles)
```
