

Comparing Cards Code

```
import random

faces = ["two", "three", "four", "five", "six",

         "seven", "eight", "nine", "ten", "jack",

         "queen", "king", "ace"]

my_face = random.choice(faces)

your_face = random.choice(faces)

print("My card: " + my_face + ". Your card: " + your_face)

if faces.index(my_face) > faces.index(your_face):

    print("I win!")

elif faces.index(my_face) < faces.index(your_face):

    print("You win!")

else:

    print("Tie!")
```
