

Rolling Dice Code

```
import random

keep_going = True

while keep_going:

    # 'Roll' five random dice

    dice = [0,0,0,0,0]

    for i in range(5): # "Roll"

        dice[i] = random.randint(1,6)

    print("You rolled:", dice)

    answer = input("Keep going?")

    keep_going = (answer == "")
```
